MOBILITY

Towards a mobile future in a sustainable and intelligent environment

Saint-Etienne (France),
25th October to 4th November 2022

Are you interested in discovering how digital technologies can encourage innovative actions around mobility?

Are you interested in co-designing real tech solutions for mobility, in all its forms, in Saint-Etienne, and work within an international and multidisciplinary environment?

If it is so, we have a fantastic workshop for you!

www.dc4dm.eu

APPLY BY
01 OCTOBER 2022

The workshop is free of charge,
but you must fill the form at:
